

FVD Vertical Mixer

The FVD series of the high shear vertical mixers present a solution for the processes of dispersion, emulsifying, homogenisation and disintegration of solids in a wide range of products in the food-processing, cosmetics, pharmaceutical and fine chemistry industries. These mixers are intended for work under the atmospheric pressure and with the products of either high or low viscosity. The mixers are recommended to work with anchor type agitators if the application involves highly viscous media.

Type	Motor	A	B	C	DN			
					DN	ØDe	ØDc	n*f
FVD-30-011	1,1 kw 3000 rpm	750	258	125	150	250	225	4*11
FVD-30-022	2,2 kw 3000 rpm	850	355	170	200	310	280	4*13
FVD-30-040	4 kw 3000 rpm	1206	450	185	250	360	330	4*13
FVD-30-075	7,5 kw 3000 rpm	1392	525	210	250	430	390	4*17,5
FVD-30-185	18,5 kw 3000 rpm	1465	615	290	300	430	390	4*17,5

Type	Viscosity		Additional agitation
	1 cpu	3000 cpu	3000 cpu
FVD-30-011	300L	100L	200L
FVD-30-022	500L	300L	400L
FVD-30-040	1000L	750L	900L
FVD-30-075	1500L	1000L	1200L
FVD-30-185	2000L	1500L	1700L
